

The Starting Point to Identify Gifted Potential

Conceptualize giftedness in a straightforward, direct, and meaningful way

The GRS is quick and easy to use as part of a comprehensive battery in the assessment of gifted students. It provides a standardized method for identifying children for gifted and talented programs based on teacher observations. The GRS also utilizes norm-referenced scales that **measure up to six domains, including:**

- Intellect
- Motivation
- Leadership
- Academic ability
- Creativity
- Artistic talent

The GRS takes 5 to 10 minutes to complete and is designed for children ages 4 to 13. Move your gifted and talented program beyond intelligence and achievement. GRS is now available on Q-global®, making it even easier and more convenient to use.

The **Gifted Rating Scales** are norm-referenced rating scales based on current theories of giftedness and federal and state guidelines regarding the definition of gifted and talented students.

Pre-school and kindergarten teachers complete the Pre-School/Kindergarten GRS-P form for children between the ages of 4:0 and 6:11 years. The GRS-P contains brief scales covering five domains: intellectual ability, academic, motivation, creativity, and artistic talent.

Teachers complete six brief scales on the School-Age GRS-S form to evaluate children between the ages of 6:0 through 13:11 years who are in grades 1–8. The six domains include: intellectual ability, academic, motivation, creativity, leadership, and artistic talent.

Features and Benefits

- The GRS validity studies have been conducted to link to leading cognitive and achievement batteries.
- Both forms of the GRS provide a standardized method for identifying children for gifted and talented programs based on teacher observations.
- Both forms of the GRS allow for identification of relative strengths and specific areas of giftedness.
- Both forms of the GRS provide specific behavioral guidelines for identification of giftedness within each domain.
- Teachers can complete both forms of the GRS easily and quickly.

The GRS is now available on Q-global!

The power of Q-global lets you enhance the strength of the GRS by more efficiently completing forms and identifying potential gifted students.

- No more kits or forms to buy. Your Q-global subscription with GRS has everything you need to get started.
- GRS rating scales can be emailed to teachers and completed online.
- Teachers can quickly pull up on-screen forms and simply click on their responses by domain and submit.
- No more managing paper or looking up scoring tables. Results are scored automatically with greater accuracy and easy access from any web-enabled device.
